Intermediate CSS Reference: Class 4

CSS Property Reference
```
padding: 15px;
padding-top: 3%;
padding: 5px 3px 10px 3px;
margin: 25px;
margin-left: auto;
margin: 15px 6px 5px 9px;
```
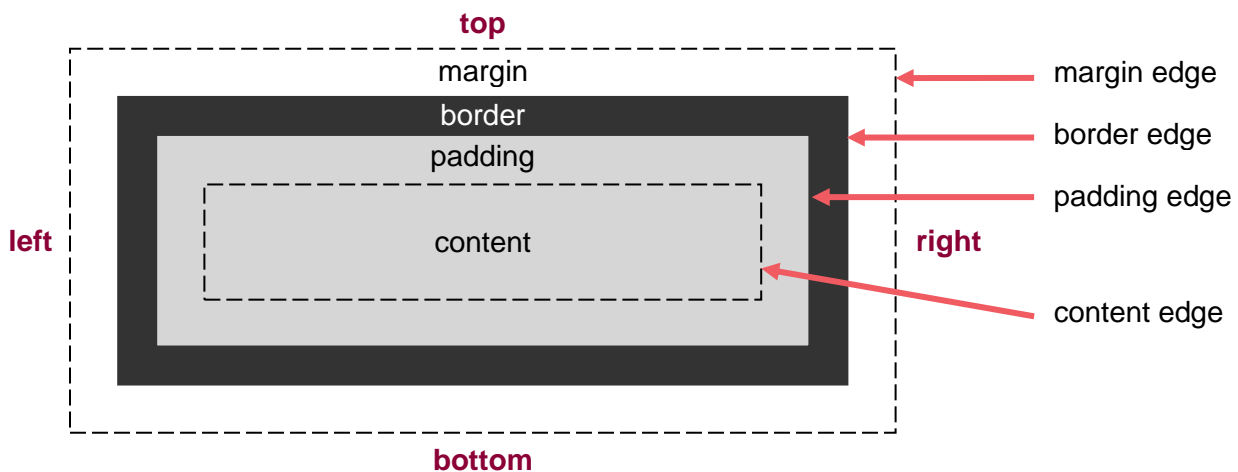

New CSS

```
float: left;      ← Floats an element to the left. Text will "wrap" around.
float: right;     ← Floats an element to the right
clear: left;      ← Clears content by moving it to the next line. Can be 'left', 'right', or 'both'
```

```
.wrapper {
    width: 100%;
    max-width: 1200px;
    margin: 0 auto;
}
```

Clearfix, syntax:
```
.wrapper:after {
    content: '';
    display: table;
    clear: both;
}
```

The Box Model

In the box model, you can adjust the **T**op, **R**ight, **B**ottom, and **L**eft (TRBL)
